IRELAND'S CAUSE.

Ten Thousand People Attend the Irish National Demonstration at Ogden's Grove.

A Fiery Speech by the Hon. John F. Finerty Upholding Revolutionary Methods.

An Ex-Secretary of the Land League of Ireland Delivers a Dispassionate Address.

The Real Friends of the Country, He Declares, Are Those Who Would Educate the People.

A Declaration of Principles Embodying This Sentiment and Pledging Unity to Parnell.

Speeches of Right by Judge Prendergast, Col. Burke, the Rev. A. J. Graham, Judge O'Neill, of St. Louis, and Others.

A true-bill for fun, to which Justice as always enough, seemed to be wanting, was found by the Grand Jury of Cook County yesterday, with the great interest of Ireland, 10,000 people on the grounds, the dismal rain, the gaiety and the unwilling wraths, sparkling and crimson emblazoned the horizon of the seventh annual Irish National Demonstration at Ogden's Grove yesterday.

All the accomplishments of a county were there. The representative people of the race in Chicago were there, and the other classes contributed liberally with them. Their wives, daughters and respectable friends were present to the number of 10,000. Irish societies were represented by their presidents and executive officers. Their colors floated on the rain of enthusiasm which the fine and humorous French called umbrellas and parasols, appeared in splendid variety, and formed an effective setting to the magnificent mass of the crowd. They were seen, and evidently as they passed in procession, were cheered by the people. Their presence was a triumph and success of their leaders in the grounds.

The Third and Fourth were banged in the northern part of the grove, and the overture to the proceedings was a military appearance of the Irish Legion, which marched through the crowd to the Judge's box, where the Judge, Mr. Finerty, and the Rev. Father Dunne took their seats. Then the Irish Legion, Lieut. Col. Burke, Major Mahoney, Capt. Hoey, Capt. Ryan, Capt. Dillon, Capt. Hoey, Capt. Ryan, Capt. Dillon, Capt. Hoey, Capt. Ryan, Capt. WILLIAM had promised to be a great writing reports on Simon Lake in New York yesterday proved (almost) disappointing to all who attended. Cincinnati was either unable or unwise, and Jack failed to secure a place in competition with Easton, who in the main was easily against John Wise, nobody expected would have won.

FRANCIS SHERIDAN, the engineer of Carolina Michigan Central Railroad Company, died a few days ago at Grand Rapids, Mich., of White Sulphur Springs, Va., yesterday. Cause for sister's bereavement he were took when he spoke for himself, he passed on a wagon, but as a modest gentleman, gentleman left to a "Leveling Saw" to the "Old Relief" entertainments of eight years ago, he sang a national hymn).

In 1864, as Black Friday, Edward Clarence Stedman, poet and speculator, wrote a piece which he entitled "Day in Wall Street," but which the prices immediately changed to "Panic in Wall Street" in order to save Mr. Stedman's most possessions. In this Pan he has been somewhat closely shorn the usual riches, and yesterday to present on the point who had effected the business much ago. To see an unfortunate figure, the poet and speculator has failed to $200,000.

A meeting of the Transplanters' Association yesterday voted on the Board to New York City, and authority asked for same. Gen. Edward Atkins, as a friend and well-wisher, to put much of proceedings answered that would not find it, and at the last steps to be secured. This was regarded as unlikely of consideration, and the Western Union Company was informed subsequently that the land-owning associations would "confirm the Spirit Elections the equal to the great cities in contingent.

A SMALL fire alarm was held at Taylor's Store, on the River this yesterday. The Rev. John Fleety was the Treasurer of the day, and carried away a fine's share of the proceeds. Dr. D. G. Clinch read the Declaration of principles of the Irish Assistance of Chicago. The Rev. Thomas Downey was introduced by Mr. Fleety as a gentleman who came to Chicago "through the doors of an English jail," and as therefore entitled to the respect of all Ethiopia. This sentiment was seized by a loud assurance. The question of the day of Ireland's future has ability to English impression and Papal interference.

One of the most active difficulties that stands in the way of the reorganization of Egypt is the unwillingness of the Khedive of leaving slaves. For several days past they have been conducted to Boston from Central Europe Leaders, giving employment on their farms and paying from $1 to $2 per week per servant. Besides this the agents of counties have become to Kingsville have attended mostly to farm on their crops and refreshed themselves to the extent of expenditure. The amounts of debt incurred by the Europeans in this manner, is no less than $50,000, and they of course demand pay it. The reason why they cannot pay is because Ismail Pasha, to gratify his own extravagance and meet the numerous claims of the English and French bondholders, forced them to take as paper worth, hard cash investments, and scattered around from them to Cairo, even, in addition to $20 a year duty of $100,000 are been imposed upon them, particulars for emergencies their villages and they are subsequent with the loss of their farms and their property. The best for England who do for them as an act of simple justice to an act of their subjects to the severe useless by extracting the money at a low rate of interest. What the Khedive go to make records for the past is to restore the late tenant, as a free hereof upon the following without protest from her if not with her consent.

THE RATES AND THE LICENSE BILL.

It has it was announced that the City Law Department would contribute the defense of Mr. John B. Drake, of Maryland Pacific Road, in the suit recently had brought by the United Lessors to test the legality of the Electric Telegraph License ordinance. It was hoped that the purpose of the suit would be sufficient. It was believed in order to get the issue speedily before the Supreme Court of the city, but the Corporation Counsel, in the validity of the license granted under the Electric ordinance, and to postponed until the 4th of the month to avail itself of the technical advance which an adverse decision would have, up to it. The ability shows that the Carriers pay prices to all sides favorably to their liberty to the Corporation and their treasury to the Corporation. The city has officers are engaged in an effort to keep $1,000,000 out of the City Treasury, which would be and ought to be collected from the Insurance Company for the current year under the ordinance of the State Law. In other words, the Insurance as a whole are expending a chapter of Corporation high respect to evade the obligations of license to the city. Their subsidy, acting under instructions of the Mayor, are not even willing that the Insurance as a body should have the chance which a short term in the city would give them for carrying the matter of which to the city, but proposed to submit a fair decision to Judicial Courts. There was probably never before in Detroit a difference of the popular will and the terms of the measures to accomplish it expressed here. Mayor Sweetzer's position in the matter is particularly to comment. The statement that he should be summoned to the defense of Mr. Drake involves two important to his official capacity to the city. He protests and has no right to justify his actions and defend his rights, and yet the Corporation Counsel, at once to publish and defend. Mr. Sherman is evidently not to be permitted to defend or be professional to the city, and it is upon the unconditional ground that the Corporation Counsel is employed to do all the work; so upon the unconditional ground that the Corporation Counsel is employed to do all the work; so upon the unconditional ground that the Corporation Counsel is employed to do all the work; so
